

Declaration of Conformity

We, the manufacturer/supplier declare the batteries identified below

Brand Name/Trade Marks	DURACELL® rechargeable nickel metal hydride batteries
Duracell Designations	DC1500 (AA), DC2400 (AAA), DC1604 (9V), DC1400 (C), DC1300 (D), DX1500 (AA) and DX2400 (AAA)
IEC Designations	HR6, HR03, HR9V, HR14, HR20

are herewith confirmed to comply with the requirements set forth in:

ANSI C18.2M Part 1	Portable rechargeable cells and batteries – General Specifications
ANSI C18.2M Part 2	Portable rechargeable cells and batteries – Safety Standard
IEC 61951-2	Secondary cells and batteries containing alkaline or other non-acid electrolytes – Portable sealed rechargeable single cells – Part 2 : Nickel-metal hydride
IEC 62133	Secondary cells and batteries containing alkaline or other non-acid electrolytes – Safety requirements for portable sealed secondary cells and for batteries made from them for use in portable applications

and comply with the marking requirements and substance restriction limits set forth in the **EU Battery Directive 2006/66 and Amendment 2013/56 EU** and contain less than <0.0005% mercury, <0.0020% cadmium and <0.0040% lead. Therefore, the chemical symbols Hg, Cd and Pb are **not** required to be marked below the separate collection symbol. Further, complies with capacity labeling for rechargeable portable batteries in accordance with the EU Battery Directive **AMENDMENT 1103/2010/EU**.

Batteries are considered articles under the **EC REACH Regulation (EC 1907/2006)** and are not subject to the REACH registration and SDS requirements. Based on communication with our suppliers, Duracell rechargeable nickel metal hydride batteries are not known to contain at >0.1% w/w, any of the listed Substances of Very High Concern (SVHC) in accordance with the ECJ article definition of 10 September 2015. Duracell is managing compliance with EU REACH as part of our daily quality, safety and regulatory activities. The Candidate List of SVHC's is updated approximately bi-annually and Duracell will update this declaration accordingly if the updated SVHC list affects the assessment herein.

Batteries are not regulated under the **EU RoHS3 Directive 2011/65/EU and its amendment (EU)2015/863**. Under the EU Battery Directive, the limits for mercury, cadmium and lead are more restrictive than the RoHS limits. Duracell rechargeable nickel metal hydride batteries do not contain any RoHS substances.

Sincerely,
